Wayne and Penny--

Jeremy Fuller (801-628-3648) paid the permit fees for these operations (one year each) and told me he has picked up the claims. I directed him to the transfer application form on our web site and explained it would need to be signed by him and the old operator (Utah Mineral and Fossil). I didn't get into the past due fees which should be the responsibility of Utah Mineral and Fossil. I also didn't get into the issue of the escalated sureties although I did mention that the BLM holds sureties. I don't know if Mr. Fuller will have to put up new sureties or if the names on the existing sureties can be changed. That's something we'll have to work out when we get the transfer applications.

I don't think he knew what he was getting in to.
